Chief’s Message

Chief Al S. Thomas, Jr.

Chief Timothy J. Longo retired in April 2016 after 15 years of dedicated and innovative service to the Charlottesville community. Tim Longo’s long-term emphasis on police professionalism and a community policing operational philosophy served to mold the CPD into an involved and dynamic public service agency. We were privileged to have Chief Longo as a leader and a friend. His legacy will shape this agency and the community it serves for many years to come.

On behalf of the men and women of the CPD, I am pleased to present the 2016 Annual Report as it is an opportunity to highlight Charlottesville Virginia to be one of the safest cities in the Commonwealth to live, work and raise a family. The report highlights statistical data for 2016 and provides a comparison of the same data for previous years and also provides a snapshot of accomplishments of the department, an overview of specialized activities, and other information we hope you will find useful.

This year has been one of continuing success in the delivery of public safety services for the Charlottesville Police Department, built upon our tradition of working hard to provide the highest level of public safety services to our citizens. Our formula of creating strong educational and crime prevention partnerships in the community, coupled with providing proactive law enforcement services and effective criminal investigations of crimes has helped to make Charlottesville a safe community.

Today we strive to remain in the forefront of modern policing practices. We can best do this by working cooperatively with other governmental agencies, businesses, the faith community, and all citizens. The police and the community share in the responsibility for crime control and public safety and as we continue to work together, everyone benefits from the partnership. Our commitment to maintain these partnerships enables us to better understand the needs of citizens and provide the most efficient response to problems in our community.

The tremendous dedication and commitment of the men and women that make up the officers and staff of the Charlottesville Police Department has been fundamental to our success in maintaining public safety in our community. Their hard work, innovation in problem solving, and compassion for the citizens that we serve are the reason we achieve success in providing outstanding public safety services, year after year.

To the citizens of Charlottesville, a sincere thank you for your willingness to work collaboratively with members of your local police department to identify community problems and develop solutions to address these problems. Let us work just as hard to enhance the quality of life in Charlottesville Virginia in 2017.

Alfred S. Thomas, Jr.
Chief of Police
The Charlottesville Police Department serves the City of Charlottesville, an independent city located in the foothills of the Blue Ridge Mountains. The Charlottesville Police Department consists of 127 authorized sworn positions and 38 authorized civilian positions (165 total) that strive to live out the values of Character, Pride, and Dedication. Since 1854, the Department has dutifully served this “world class” city. Accordingly, we pledge to continue our tradition of service and excellence to every citizen, student, and visitor in the Charlottesville community. We are very proud of our Department’s mission statement, our officers’ values, and our collective vision for the future. It is our passion, duty, and honor to serve the community as the Charlottesville Police Department.

Our Department’s patch is a replica of the City seal. The seal represents the many facets of our community with symbols that correspond to historical events, our natural environment, political figures, and our institutions of higher learning. In viewing the patch from left to right and top to bottom, you will recognize four distinct symbols on the patch. The Rotunda symbolizes Thomas Jefferson’s academic village, the University of Virginia. The flower symbolizes Virginia’s state flower, the dogwood blossom. The cannon is a reminder of the Civil War battles fought in our area and the significance of our community in the Revolutionary War. Lastly, the three statues represent the three presidents from the Charlottesville area - Thomas Jefferson, James Monroe, and James Madison.

Crime Mapping is a web-based application that allows citizens to view crime activity in their local community. Using the many options and features of this website, users can search for crimes that may have occurred near a specific address, a well-known landmark or location, or within a certain geographic boundary. Mapping also offers the ability to view reports about crime and to print a copy of the map.

One of the hallmarks that most governments and citizens and many prospective residents look to in evaluating a community is crime and the perception of crime among residents. The Charlottesville Police Department recognizes that crime control is one of our critical missions.
The Charlottesville Police Department's commitment to a community policing organizational philosophy will continue to be a major factor in the reduction of crime in the City of Charlottesville. Although there are many elements that influence the reporting of crime, it is generally accepted that only a modest percentage of crime is ever reported to the police. The law enforcement community's primary objective with regards to the collection and analysis of crime data is to provide a reliable set of crime statistics for criminal justice and law enforcement administration, operation and management, as well as providing an objective measurement and indication of the overall level of crime.

CHARACTER • PRIDE • DEDICATION
The mission of the Internal Affairs Unit is to ensure the highest possible ethical and performance standards by all elements of the Charlottesville Police Department. The Charlottesville Police Department investigates all inquiries and complaints made by citizens: inquiries are matters of concern brought forth to the department, which do not rise to a violation(s) of departmental policy and/or a violation of the law; complaints are matters of concern brought forth to the department alleging a violation(s) of departmental policy and/or a violation(s) of the law.

Questions about Officers actions where no policy or law violation(s) occurred are inquiries. In these cases, an explanation of what actions were taken and the reasoning behind them are provided to the person making the inquiry. Allegations of misconduct are complaints that allege corruption, misuse of force, violation of the law, violation of an individual’s civil rights or a serious breach of department policy or employee rules of conduct. Performance demeanor complaints typically allege an inappropriate action or response by an employee, improper operation of a police vehicle, violation of a department policy or employee rules of conduct or any other act or failure to act that does not rise to the level of an allegation of misconduct.

Upon conclusion of the investigation, each complaint is deemed to be one of the following:

- **Sustained** – Allegations true and officer is determined to have acted in violation of applicable procedures, techniques, and regulations.
- **Not Sustained** – unable to verify the truth or falsity of the complainant’s allegations.
- **Exonerated** – allegations true, but officer in not guilty of any misconduct, due to adherence to applicable procedures, techniques, and regulations.
- **Unfounded** – no basis of fact to support the allegation.

During 2016 there were 13 complaints (allegation of misconduct) filed against police department employees. Findings were as follows:

- 4 Allegations of misconduct were deemed “Sustained”
- 7 Allegations of misconduct were deemed “Unfounded”
- 1 Allegations of misconduct were deemed “Not sustained”
- 1 Allegation is still under investigation
Charlottesville Police Department policy dictates that police officers will use only that force necessary to protect life and affect lawful objectives. In addition to the use of physical force, police officers in Charlottesville are equipped with and trained to use Oleoresin Capsicum ("OC") chemical spray, batons, Tasers and, when necessary, their firearms when performing their lawful duties.

Each member of the uniformed patrol staff is outfitted with the X26 Taser. The X26 Taser is a Less Lethal Electronic Control Device (ECD). Electronic Control Devices (ECD) use propelled wires or direct contact to conduct energy to affect the sensory and motor functions of the nervous system. The full implementation of the Taser is expected to significantly reduce the likelihood of both citizen and officer injury in the future due to a reduction in physical contact with combative individuals.

During 2016, there were a total of 12 incidents that resulted in applications of force by individual officers. Every incident in which force is used by a Charlottesville Police Officer is thoroughly investigated and documented by supervisory staff and is reviewed through the department’s chain-of-command. Supervisory staff monitors officer activity to identify patterns and to provide for consistent, proactive intervention when appropriate.

- In 2016, there were 2,546 arrests. 1,452 of those individuals were taken into custody, 497 were ticketed/cited, 597 were on-view, and only 0.47% were incidents in which officers had to apply force.

- In 2016, there were 21 assaults on CPD officers, staying with the trend over the last five years.

The Charlottesville Police Department regularly receives support from the community and would like to recognize those who went above and beyond to show their gratitude and support over the last year. The kindness they showed to our Department was tremendous and came during a time in which Law Enforcement Officers throughout the nation faced unprecedented scrutiny and sometimes fatal attacks. The entire Charlottesville Police Department thanks each of the businesses and citizens who took the time to show our officers that they are cared for and regarded well by the Charlottesville community. Please accept our sincerest gratitude.

The owners, staff and patrons of the Tin Whistle Irish Pub would like to thank the Charlottesville Police Department for their service - each and every day. Please enjoy a small snack with our compliments and appreciation!
There were numerous other citizens who came by to drop off care packages, food items, and cards just to say thanks and to let our officers know that they supported us. We are very grateful to each and everyone of them and are honored to serve such a great community.
This memorial was dedicated in spring 2009 to officers who died while serving and protecting the citizens of Charlottesville. Their courage and heroism will not be forgotten.

**Fallen Heroes**

**Officer George Thomas Seal**

**End of Watch: Monday, December 31, 1888**

Policeman Seal was shot and killed in the line of duty. The suspect was arrested in Richmond, Virginia, following a manhunt and charged with Policeman Seal's murder. He was convicted of the murder but the sentence was overturned by the Virginia Supreme Court. A second conviction was upheld and the murderer was hanged in the court yard of the city jail on April 21, 1891.

**Extra Policeman Meredith A. Thomas**

**End of Watch: Thursday, April 12, 1917**

Extra Policeman Meredith Thomas was shot and killed as he confronted one of two men who he caught stealing hams from a warehouse. Policeman Thomas had been detailed by the police chief to watch the warehouse following a rash of thefts from the area. When he confronted the man a struggle ensued, during which the second suspect struck him in the head with a brick from behind. The second suspect then took Policeman Thomas' revolver and shot him in the abdomen. Both men were apprehended a short time later and charged with his murder. They were both convicted, sentenced to death, and subsequently executed in the electric chair on June 20, 1917.

Policeman Meredith had served with the Charlottesville Police Department for approximately one year. He was survived by his wife and three children.

**Lieutenant Robert Eugene Frazier, Jr.**

**End of Watch: Monday, April 15, 2002**

Lieutenant Robert Frazier suffered a fatal heart attack while attending the 209th Session of the FBI National Academy in Quantico, Virginia. He had completed a portion of the Academy's fitness program at about 2130 hours and was jogging to a nearby track when he suffered a fatal heart attack.

Lieutenant Frazier had been employed with the Charlottesville Police Department for 21 years, and had been a deputy with Albemarle County for almost nine years. He is survived by his wife, daughter, and three sons.
The Department would like to extend a very special thank you to the Charlottesville Police Foundation, a non-profit independent organization of citizens formed to support the Charlottesville Police Department. The Foundation provides resources for innovative programs to improve public safety that are beyond the reasonable reach of the City’s budget, by recognizing outstanding performance, and by increasing public awareness of the Department’s efforts.

The Charlottesville Police Department also wishes to thank others that have supported and volunteered their time and effort to making the Charlottesville Police Department a premier provider of law enforcement services for the region and state.
