City of Charlottesville Landlord Agreement FAQ's

When does the agreement start? *The agreement starts when the City of Charlottesville Utility Billing Office has received your request and has sent you written confirmation signed by a city representative.*

How much is the initiation fee to put service in my name? *The fee is \$30.00*

Do I pay the fee every time a utility is put in my name? *Yes, the fee will show on your bill for each occurrence.*

What happens if my tenant calls for disconnection and then two days later my new tenant calls for connection? *The service will go into your name for any time period that you do not have a tenant on the account for an address that you have an agreement. This could be for one or more days depending on how your tenants handle this. There are no exceptions to the initiation fees.*

What happens when my tenant is cut off for nonpayment? *The agreement to place service in your name does not apply if service is discontinued for nonpayment. If a customer has not made payment within seven (7) days after service is discontinued, the service will no longer be in the customer's name. At this point, we may attempt to contact you to determine if you want service turned on and placed in your name. It is very important that you give us up-to-date contact information.*

How do I stop the agreement? *To stop the agreement you must provide us with signed written notice informing us that the agreement is canceled with regard to one or more of the listed addresses. The agreement may be canceled in total or just for certain addresses. Please include your daytime phone number in case we have a question. We will respond with a confirmation that we have received your letter and will no longer put an address in your name. Once you have received the confirmation, your agreement with the City of Charlottesville will be canceled as requested.*
