

\$200

Towards the purchase and installation of a low flow toilet

A tankless or on demand water heater conserves energy by heating water when you need it. Enjoy the benefit of an uninterrupted supply of hot water. From the shower to the dishwasher, you will notice the difference a tankless water heater can make in your home and your utility bill.

TO QUALIFY FOR THE REBATE, YOU MUST:

- ✓ Be the home owner/rental property owner and be in good credit standing with the City of Charlottesville.
- ✓ Be a Charlottesville Gas residential/commercial customer and switch from a propane, electric or natural gas storage tank water heater. New customers with existing homes are also eligible.
- ✓ Must install a natural gas tankless water heater with an energy factor (EF) of 0.80 or greater.
- ✓ Purchase and install this qualifying appliance between July 1, 2015 and June 30, 2020.
- ✓ Only one water heater rebate per address.
- ✓ New construction (whether it be commercial or residential development projects, e.g. subdivisions) installations **do not qualify**.
- ✓ Rebate programs are available on a first-come, first-serve basis. Funding and guidelines for these programs may be changed or discontinued at any time without notice.

The rebate can be used to cover the cost of the tankless water heater and/or the installation cost **up to \$200**
