The Strategic Investment Area (SIA) Plan recommendations calls for a Form-Based Code. The Code is designed to achieve the desired outcome intended by the comprehensive plan; create a more walkable and economically sustainable place, and make development approvals more objective and predictable.

The draft Code will be discussed and consultants will respond to questions from the public. The same materials will be presented at each open house. So, if you are unable to attend on September 4, you have another chance on September 5.

This meeting is sponsored by the City of Charlottesville
