I. PURPOSE: The City of Charlottesville is soliciting for Software, Hardware, and Implementation Services for electronic processing of vendor invoices without the use of physical paper within our current SAP ERP. This software is to provide all processing as well as document management and retrieval of vendor invoices for auditing and reporting.

II. MINORITY BUSINESS PROGRAM: As part of the City of Charlottesville’s Minority Business Program, the City of Charlottesville encourages the participation of small, women, minority, veteran and micro-owned businesses (SWaM-O) in the City’s procurement transactions. In order to support and build up the capacity of SWaM-O businesses, City Council and staff have taken steps to push forward policy changes and initiatives to help reduce barriers to doing business with the City. To find out more about the current City of Charlottesville initiatives and programs please visit the Minority Business Program website at http://www.charlottesville.org/business/minority-business-program.

III. BACKGROUND: Currently the city uses the SAP ERP to process physical paper copies of invoices, which it has to store on premises, and archive according to the rules of the Virginia State Library. There are approximately 84,000 paper copies of invoices processed yearly. These have to be filed, and maintained for audit, stored, and retrieved whenever inquiries from departments, public, and outside agencies occur. Accounts Payable (AP) staff spend several hours weekly maintaining the manual filing system, as well as departments who must physically transmit the documents to the AP section for processing in the Finance Department. Approximately 80 decentralized buyers receive the goods, place orders and park an invoice receipt. Then the department will submit the paper copies to AP for review and posting of parked invoice receipts.

IV. STATEMENT OF NEEDS: The contractor shall comply with all applicable federal, state and local laws, rules and regulations applicable to the provision and performance by the contractor of the work and services that are the subject of the contract.
A. Software will be compatible with the City’s SAP ECC 6.0 ERP the Finance and Materials Management modules. The software will allow city departments and vendors to submit invoices to the City’s Accounts Payable office in the Finance Department, and process the payment within the SAP system. Software will allow retrieval of the vendor invoice image from electronic storage as needed. Software will document process flow along with audit trail of approvals, as needed. Software can be compatible with other similar software packages, but must be compatible with the current software that the City uses. Software should provide the following functionality and features:
   a. Ability to read a paper invoice obtained through scanning or some other method to capture the document image. This image will be in an acceptable format such as a PDF or similar type of document.
   b. Once the invoice image is captured, it will begin to process SAP transactional information and record a processing status to those users who are processing payments. Workflows can be initiated to alert users if an action is required.
   c. Users will have the ability to enter all accounting segment information needed for the invoice that is being processed, if not apparent in the SAP purchase order. If the account assignment in the related SAP purchase order is present, then the image will be associated with that purchase order’s account assignments.
   d. Software will track the image along with any SAP generated system documents. For example if there is a three-way match on an invoice related to a Purchase Order, then all three documents will be identified to the invoice image: i.e., the goods receipt document, the invoice document as well as the Purchase Order.
   e. Software will allow viewing of the invoice image from the documents posted in SAP. The document image itself will be stored within the existing SAP server, or server included in the proposal. Cloud-based storage may be also be considered.
   f. Invoice images will be directly searchable and retrievable once the status of the invoice image has been processed in the SAP system. Such searches may include, but not be limited to these criteria: posting date, invoice date, document number, accounting segments used by the City, dollar amount, vendor account, and vendor name.
   g. Reports showing the documents processed, their status, name of personnel who processed the document, date, and time, will be stored and retrievable for audit.
   h. It is desired that all of the software functionality will be available within the existing SAP software so that users will not have to “log-in” to another software platform to perform invoice processing functionality.
   i. To the extent possible, user security can be controlled based on roles, and permissions.
B. Implementation Services should be included in this proposal to provide the City the desired functionality as described above. These services will allow the City to install and operate the software using its established business practice, if possible. These services will include advice and guidance as to the best way to achieve the City’s goals. Service will also include staff training on the use of the software. Such services will include a review of current business practices, and will offer suggestions as to any improvements that could be afforded. This service will work with City staff and will ensure that the desired result will both increase efficiency and accountability. Implementation will include, but not be limited to:
   a. Review and documentation of both “as is” and “to be” business processes.
   b. Implementation will take into account City staff currently performing the function, and make recommendations that will improve the process within the limits of the software functionality.
c. Software will be configured to work within the city’s general ledger structure, utilizing the current
document structure, and the city’s material management module.

d. Implementation personnel will work with Finance staff to ensure that all of the City’s invoice processing
objectives are met.

e. Implementation personnel will provide training materials on the use of the software for users who process
invoices in the system.

f. Implementation schedule will ideally try to have all installation, training, and systems ready for
processing of new fiscal year invoices beginning July 1, 2020.

A. GENERAL INSTRUCTIONS:

1. RFP Response: In order to be considered for selection, Offerors must submit a complete response to this
RFP (“Proposal”).

   a. One (1) printed version original marked “Original” and five (5) copies of each Proposal shall be
   transmitted to the City, along with an electronic copy of the proposal on CD. **The City will accept flash
   drives or USB sticks.** The proposal should be formatted either in Microsoft Word or PDF.

   a. In addition, should the proposal contain proprietary information, submit one (1) redacted printed
   version with proprietary portions removed or blacked out marked “Redacted Copy” along with an
   electronic copy on CD either in Microsoft Word or PDF format of same. **The City will accept flash
   drives or USB sticks.**

   These items must be submitted to the City as a complete sealed proposal. No other distribution of the proposal
   shall be made by the Offeror.

   Proposals must be submitted by the date and time stated in the solicitation. Proposals will be date and time
   stamped upon receipt and retained unopened in a secure location until proposal opening. No consideration
   will be given to date of postmark or error in delivery to incorrect address. It is the responsibility of the
   Offeror to ensure timely and correct delivery of proposal.

2. Proposal Preparation:

   a. Proposals shall be signed by an authorized representative of the offeror.

   b. Each Proposal must be and remain valid for a period of at least sixty (60) days from the date set by this
   RFP for receipt of proposals.

   c. All information requested or required by this RFP must be submitted. Failure to submit all information
   requested may affect the overall rating of the offeror’s proposal.

   d. Proposals should be prepared simply, providing a clear, straightforward, concise description of the
   offeror’s qualifications and suitability to provide the required services, and of the offeror’s
   capabilities, in all respects, to perform fully the requirements of this RFP, and the offeror’s integrity
   and reliability that will assure good faith performance of the Project requirements.

   e. Proposals should be organized in the order in which the requirements are presented in the RFP. All
   pages of the proposal should be numbered. Each paragraph in the proposal should reference the
   paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph
   number, sub-paragraph, and repeat the text of the requirement as it appears in the RFP. If a response
covers more than one page, the paragraph number and sub-paragraph number should be repeated at
the top of the next page. The proposal should contain a table of contents which cross-references the
RFP requirements. Information which the offeror desires to present that does not fall within any of
the requirements of the RFP should be inserted at an appropriate place or be attached at the end of the
proposal and designated as additional material. Proposals not organized in this manner may receive
a lower score if evaluators are unable to find where the proposal specifically addresses the RFP requirements.

f. As used in this RFP, the terms "must", "will" and "shall" identify mandatory requirements. Items labeled as "should" or "may" are highly desirable, and are preferred. Depending on the overall quality and completeness of a Proposal, inability of an offeror to satisfy a "must", "will" or "shall" requirement may not automatically remove that offeror from consideration; however, it may affect the overall rating of the offerors’ proposal.

g. Each copy of the Proposal should be bound or contained in a single volume where practical. All documentation submitted with the proposal should be contained in that single volume.

h. All proceedings, records, contracts and other records relating to this procurement transaction shall be open to public inspection in accordance with the Virginia Freedom of Information Act. Trade secrets or proprietary information submitted by an offeror shall not be subject to public disclosure under the Virginia Freedom of Information Act; however, the offeror must invoke the protections of § 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data or other material is submitted. The written notice must specifically identify the data or materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret material submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices, and/or total proposal prices as proprietary or trade secrets is not acceptable. Offerors, upon request, shall be afforded the opportunity to inspect proposal records within a reasonable time after the evaluation and negotiations of proposals are completed, but prior to award, except in the event that the City decides not to accept any of the proposals and to reopen the contract. Otherwise, proposal records shall be open to public inspection only after award of a contract by the City.

i. All costs of proposal preparation and presentation shall be borne by each offeror. The City is not liable for any cost incurred by the offeror prior to issuance of a contract.

3. Oral Presentation: Offerors who submit a proposal in response to this RFP may be required to give an oral presentation of their proposal to the City. This provides an opportunity for the offeror to clarify or elaborate on the proposal. This is a fact finding and explanation session only and does not include negotiation.
