Please join us in an open discussion of “Barriers to Reentry” for local time-served returning citizens. This event is aimed to voice the difficulties convicted felons face after incarceration with housing, employment, social events, etc. in hopes of enlightening, educating, and encouraging potential allies within the community by hearing real life testimonies from those with lived experience that have transformed to productive citizens in the community.

INSPIRATION FROM SUCCESSFUL ENTREPRENEURS THAT HAVE OVERCOME ADVERSITY WITH RESILIENCE WILL BE SPOTLIGHTED!

There will be information provided on statistics of local recidivism and racial disparity in sentencing/arrests. Access to help with restoration of rights will be provided. Many local organizations will be attending to provide information on services to connect with those in need. Building a support system and knowledge of resources is vital in recovery for returning citizens.
